To Whom It May Concern:

**CONCIENTIOUS/RELIGIOUS OBJECTION REGARDING MEDICAL REQUIREMENTS**

**On Behalf of Member, [Linda S Williams of Erie, Colorado USA](#)**

Liberty Ministries International was established in 1979 with the dedicated purpose to encourage and enhance freedom-loving sovereign citizens of the United States (and the entire worldwide congregation) to claim their God-Given rights and privileges in all aspects of their lives. In this country there has always been the sacred right of Conscientious Objection to going to war or participating in activity that goes against each of our own important beliefs and dogmas. These rights are guaranteed by our Constitution and the Bill of Rights, established at the founding of our country.

Liberty Ministries welcomes all without any discrimination as to nationality, ethnicity, gender, religious beliefs, or personal values. Members are encouraged to associate with all others on this planet without judgement or partiality—choosing instead to accept all according to actual merit and existence.

According to Christian scriptures, as well many other sacred texts, we believe that our bodies are a Temple to be guarded with diligence from any negative influences, ingestions and technologies used in and around that Temple. Many scriptures in the Christian Bible support our members in declining to receive any medication or vaccination that through research and devout prayer one individually has come to believe are not fit or of value to our Temple.

Because we do not know the long-term consequences of this COVID-19 (or any subsequent versions of it) on our bodies, the Holy Temple given to us at birth by God, we are forced to err on the side of spiritual caution and decline to harm our bodies (Temples) in honor of our Creator God and His Word. Much research and testimony from thousands of doctors have convinced us that viable and safer options are available for treating this “virus,” therefore we choose to use remedies provided by God and Nature for the wellness of our Temples.

The 1<sup>st</sup> Amendment to the Constitution has protected these exact claims before the Supreme Court many times. States and local governments strive to control this perceived pandemic through various edicts and mandates that may be found to also run afoul of the 1<sup>st</sup> Amendment. We believe that our spiritual laws, duties and rights supersede all. We urge our members to otherwise follow all laws that do not violate our personally held “objects of conscientious regard.”

Additionally, the Nuremberg Code states the right to avoid the imposition of human experimentation is fundamentally rooted in the Nuremberg Code of 1947. Primary to this is the participants in an experimental medical procedure must give informed consent. I hereby state that I do NOT give my consent to participate in this experiment.

This is presented on behalf of our faithful member of Liberty Ministries 2021. Thank you for your cooperation.

In dedication to Our Divine Creator,

Thomas K. Williams  
Servant and Minister of God
